- ✦ Mastered technology:
7 patents

Eveon mission

Eveon develops customized micropumps based systems for the automatic preparation and/or injection of parenteral drugs for the pharmaceutical industry.

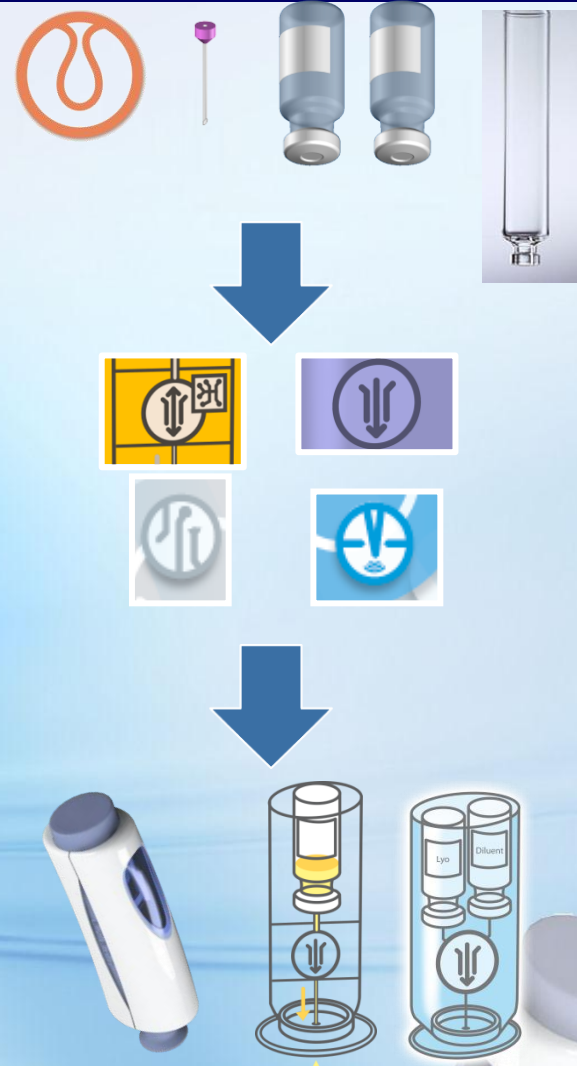

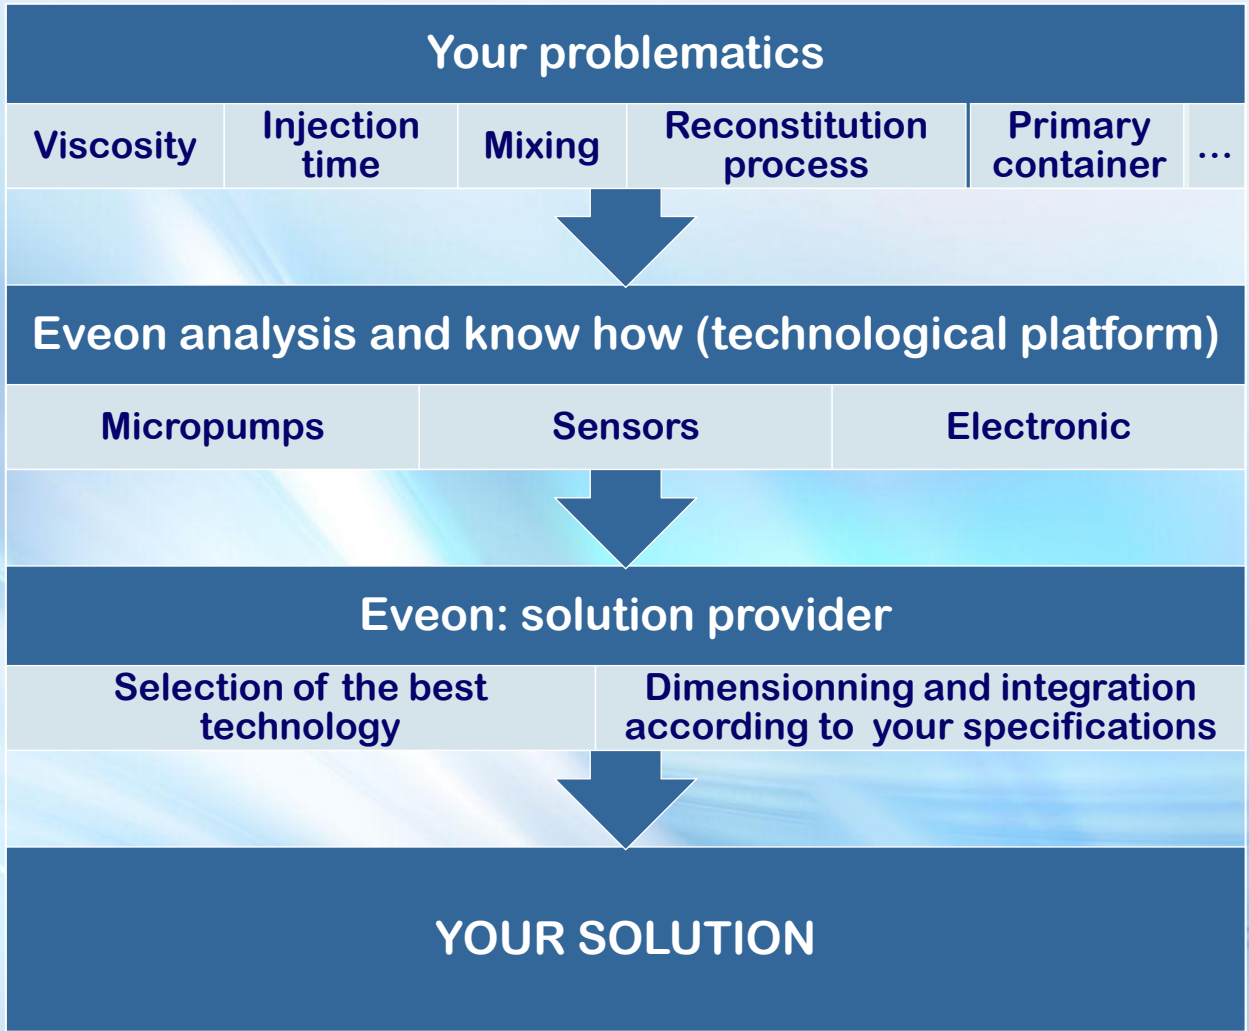

Our mission is to provide competitive solutions to the pharmaceutical industry by improving their final users' satisfaction both for:

- Homecare
- Hospital care

Eveon modular technological platform

How Eveon is your solution provider?

Eveon systems allows injection only, preparation only (e.g. lyo reconstitution), preparation+injection, solid/liquid mixing, liquid/liquid mixing, dual drug injection...

Your benefits

Your concerns	Eveon solution	Your benefits
CONTAINERS	We adapt to your standards (vial, cartridge...)	<ul style="list-style-type: none">- Fast time to market- Maximize the benefit of your filling lines
VISCOUS DRUGS (biologics)	Injection of viscous drugs from 1 to more than 100cps with zero force activation and with no larger needle	A unique solution to administer your viscous drugs
DRUGS PREPARATION (solid-liquid, liquid-liquid mixing...)	<ul style="list-style-type: none">- Automatic and user independent preparation- Optimized homogeneity, repeatability, limited foaming...	Improve the actual medical benefit of your drugs
EXPENSIVE DRUGS	Dead volume reduced to few μL	Minimum overfill = save money

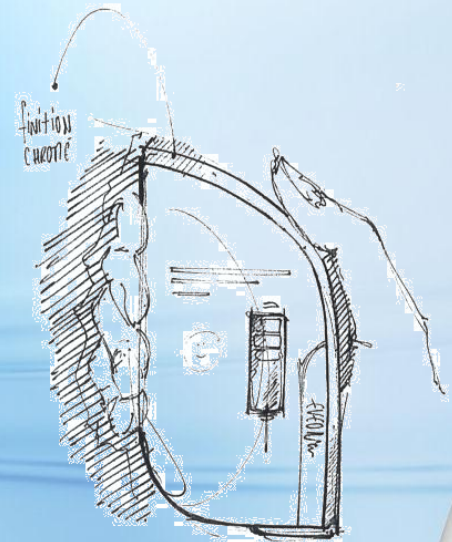

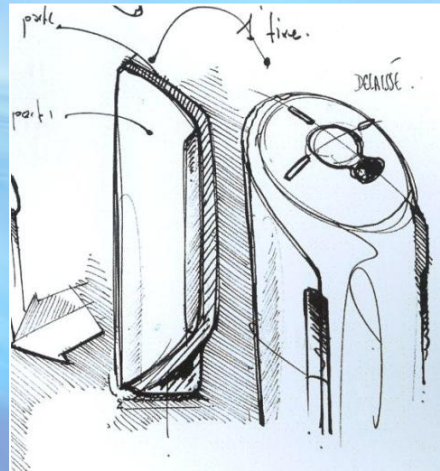

Your benefits....

...by increasing patients' satisfaction with your treatment

Your concerns	Eveon solution	Your benefits
INJECTION	<ul style="list-style-type: none">- Automatic and user independent injection- Control of volume, time, depth (SC, ID, IM)...	Mastered and optimized injection
SAFE	Automatic and inaccessible needle at all steps	Positive differentiation of your product in terms of safety
EASE OF USE	<ul style="list-style-type: none">- Minimum handling components- Customized look and feel	Increased attractiveness and intuitivity of your product
TREATMENT FOLLOW-UP	Programmable device allowing telemedicine, alarms, dose tracking...	Improved compliance to your treatment
